

# Seismic Restraints

When this job is completed 'Seismic Restraints' will be fitted to comply with AS/NZS 2918:2001 and Manufactures Specifications (if any).

AS/NZS 2918:2001 – Part 3 – Point 8

## 3.8 Seismic Restraints

Where required by the regulatory authority, provision shall be made for seismic restraint of the floor protector and the appliance. Sufficient restraint shall be provided to resist a seismic loading equal to 0.4 times the mass of the appliance. The load shall be applied horizontally in any direction at the mid-height of the combustion chamber. The appliance shall not move, tilt, or be dislodged from its installed position during application of load.
